

BIF Quartz Screed

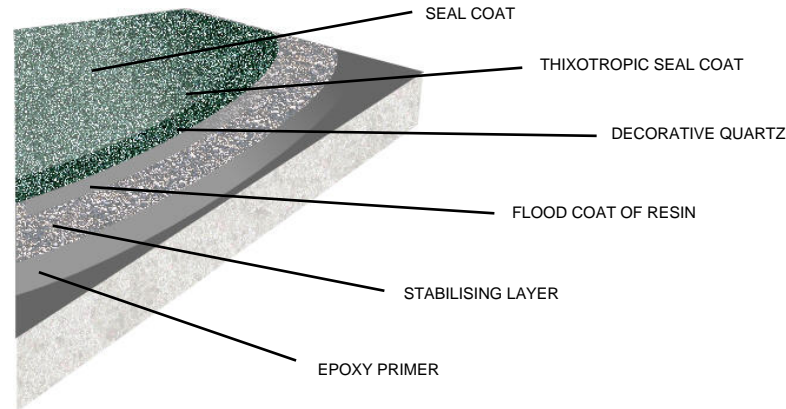

BIF are the largest installers of decorative quartz epoxy screeds in the Midlands and possibly the largest in the country.

Recent agreements with European material manufacturers allow us to offer new systems to the UK, covered by full manufacturer warranties together with our leading experience of quartz epoxy screeds.

Where vinyl or rubber floors are traditionally used we have an alternative which is tougher, seamless and more attractive.

We believe the real alternative to resilient floors is here.

Epoxy quartz screeds are extremely attractive resin floor screeds because they offer;

In areas where vinyl flooring is used, our quartz screed offers a real alternative. Large installations can be installed at exceptionally competitive rates, giving an edge to the building design with a product that will give long term service. Stronger and longer lasting.

Major installations for blue chip organisations throughout mainland Europe reinforce the quality of this system and with installation throughout the UK completed by our own directly employed team we have an extremely desirable product at an extremely attractive price and at the right quality.
