

Equinox Tropical Daylight Squall Rain

Thunder Forties Cumulus Isobar Mist

Nimbus Levanter Haze Sandstorm Solstice

A range of decorative flake finishes blended with clear epoxy binders. AltroMosaic provides a very tough wearing surface and will maintain its aesthetics for many years.

### System 1

A low cost system consisting of two coats coloured epoxy coating, fully blinded with decorative flake and sealed with 2 coats clear epoxy seal. Can be used on floor and wall surfaces. Finished thickness 1mm.

### System 2

As system 1 but with a 2mm thick self flow epoxy resin screed installed prior to applying the flake detailing. Nominally 3mm finished thickness. For floors only.

An excellent floor finish in tough areas where spillage of liquid is likely. BIF have extensive knowledge of these systems and can tailor surface texture to suit the needs of the area.

### Key Benefits

- Hygienic
- Impervious
- Slip resistant
- Decorative
- Resistant to detergent and bleach
- Withstands heavy wheel loading

### Suggested Areas of Use

- Kitchens
- Changing Rooms
- Toilets
- Showers
